

JGA Player Pathway Roadmap

Getting Started

The #1 goal is to have fun when playing golf. JGA introduces the fundamentals of grip, putting, and swing through First on Course.

Learning To Play

Consider taking lessons from a local PGA/LPGA professional for personalized instruction and join Youth on Course for affordable greens fees at courses across Alabama.

Early Competition

Drive, Chip, Putt and PGA Jr. League are great ways to convert fundamental skills into competitive skills.

Individual Competition

Compete at the local (JGA), regional (AGA), and national (USGA) level as skills develop.

Steps To College Golf

Maintain GPA and Test Scores, demonstrate competitive skills in tournaments, and follow collegiate compliance rules.
